

National Prevalence Recovery: Observed vs. Within-Country Predicted

Point size = LOCO AUC (larger = better cross-country transportability) | Dashed = perfect agreement

LOCO AUC ● 0.50 ● 0.55 ● 0.60 ● 0.65 Country ● Gambia ● Ghana ● Malawi ● Sierra Leone

Cross-Country Transportability vs. Disease Burden

Higher AUC = model trained on other 3 countries predicts this country well | Dashed = chance
